ABOUT US

Welcome to XO-CU, where nature inspires human self-expression. XO-CU comes from "In Xochitl In Cuicatl," a beautiful ancient Aztec phrase meaning "Flower and Song," symbolizing human self-expression through nature-inspired products and traditional artisanal techniques.

Thank you for your interest in our brand. We are delighted to share more about who we are.

Through our partnership with Vortex Distribution, we proudly export new British artisanal brands to Mexico and bring beautifully crafted Mexican products to the UK, aiming to spread unique creations that inspire joy and celebrate cultural heritage.

Our collections are crafted by talented local artists, with each piece reflecting a harmonious blend of contemporary creativity and ancient traditions, inspired by nature and cultural roots.

CULTURAL BRIDGE

XO-CU is a bicultural brand based in London, connecting Mexico and the UK. We are dedicated to celebrating culture and creativity while fostering a deep connection with nature.

What truly sets our products apart is our unwavering commitment to sustainability and ecological responsibility. We are on a mission to share cultural heritage from both countries the UK and Mexico through our nature-inspired products.

Thank you for your interest, we are excited to have the opportunity to work with you!

RESPONSIBLE EXPORT AND IMPORT

XO-CU works closely with our distribution partner, Vorteaux to streamline the export process. Vorteaux adheres to customs regulations and legal requirements, ensuring that products reach our warehouses in London and Guadalajara Mexico without unnecessary delays while prioritizing responsible and sustainable trade practices.
